

Badger Fire Protection

Carbon Dioxide

Carbon Dioxide gives fast, safe and effective protection for fires involving electrical equipment and flammable liquids.

They are generally suited for use indoors, making them ideal for today's office environments. Manufactured from lightweight high grade aluminum, they are highly effective, easy to use and leave no messy residue to clear up.

Features

- Available in four sizes.
- External epoxy coating adds extra protection to withstand extreme temperatures, dirty environments and UV degradation.
- Lightweight impact resistant extruded aluminum body shell for optimum strength.
- Simple seize and squeeze method of operation.
- Long lasting nickel/chrome plated brass valve with stainless steel handle and lever.
- Maximum performance at both high and low temperatures.
